### ***Honours Bachelor of Science***

Department of Psychology, Neuroscience and Behaviour, McMaster University, Hamilton, ON (2013)

Undergraduate Honours Thesis Project Title: *Interpersonal Musical Movement and Social Preference in 10- and 12-Month-Old Infants.*

- Supervised by: Dr. Laurel Trainor, Ph.D.

## CLINICAL TRAINING

### *Psychometrist – (October 2023–December 2023)*

Genest MacGillivray Psychologists, Halifax, NS

- Private clinical and consulting healthcare practice providing expert psychological and neuropsychological assessment services, as well as counselling and therapy services, for clients with neurological conditions and/or brain injuries in the Halifax Region of Nova Scotia.
- Job duties entail providing psychometric testing services, including the preparation, administration, and scoring of comprehensive neuropsychological batteries.

### *Clinical Researcher – (September 2022 – Present)*

Trauma and Recovery Lab, McMaster University

- The Trauma and Recovery Lab focuses on reducing the deleterious impact of trauma on individuals and families, and on fostering scientifically-informed approaches to recovery and post-traumatic growth.
- Duties include:
  - Administering, scoring, and interpreting the Clinician-Administered PTSD Scale for DSM-5 and the Mini Neuropsychiatric Interview for:
    - Research participants with C-PTSD involved in a Goal Management Training RCT study at the Trauma and Recovery Lab at McMaster University.
    - Research participants (first responders) completing Equine Assisted Learning for PTSD with at the Trauma and Recovery Lab at McMaster University.
  - Providing clinical support to patients throughout testing process.
  - Research grant writing

*Psychology Resident - Saskatoon and Region Predoctoral Residency and Fellowship Program – (September 2022 – August 2023)*

- Major rotation in Clinical Neuropsychology with the Saskatchewan Neuropsychology Program and Saskatchewan Epilepsy Program (September 2022-April 2023); Supervised by Dr. Lisa Lejbak. Minor rotation in Forensic Psychology with the Serious Violent Offenders Program (May 2023-August 2023); Supervised by Dr. Keira Stockdale.
  
- *Neuropsychology Rotation (8-month Major rotation; General Neuropsychology Service and the Saskatchewan Epilepsy Program - September 2022-April 2023):*
  - Conducted interviews, testing, and provided feedback for clinical neuropsychology assessments for a variety of neuropathological conditions, including Hemispherectomy, Multiple Sclerosis, Stroke, Post-COVID-19 neuropathology, Traumatic Brain Injury, preparation for Deep Brain Stimulation, Parkinson’s Disease, Functional Neurological Disorder, and pre/post-surgical Epilepsy.
  - Liaised with allied health professionals on client cases including psychometrists, psychologists, fellow psychology residents, and a variety of doctors (neurologists, psychiatrists, etc.).
  - Provided talk on resiliency amidst neurological sequelae of Multiple Sclerosis to over 150 patients in Saskatchewan for “NeuroSask” (a virtual program through the University of Saskatchewan for people with neurological conditions).
  - Involved in ongoing Short-Term Dynamic Psychotherapy for Affect Phobia for Functional Neurological Disorder patient.
  - Engaged in didactic learning experiences through weekly Epilepsy Grand Rounds and Neuroscience Seminars.
  - Participated in biweekly learning seminars on relevant topics from psychologists with residency program.
  - Conducted program evaluation project of cognitive rehabilitation group for individuals with complex brain injuries for Saskatchewan Epilepsy Program
  
- *Forensic Rotation (3-month Minor Rotation; Serious Violent Offender Response Program – June – August 2023)*
  - Conducted integrated psychological assessments for complex, high risk-needs, justice-involved individuals, including:
    - Psychodiagnostic, personality, cognitive and violence/sexual violence risk factors
    - Complex case conceptualization requirements.
    - Planning directives for future therapeutic intervention in cases of fluctuating risk-responsivity need.
    - Complex ethical decision making requirements.
    - Conducting psychological assessments using Violence Risk Assessment tools (VRS/VRS-SO/PCL-R) and psychodiagnostic tools (MMPI-III, PAI, SCL-R).
  - Provision of ongoing psychotherapy for high profile high risk-needs clients who presented with:

- Psychosis, active substance use, low mood/anxiety, stress, and trauma-related symptoms, and personality disorders (e.g., Antisocial Personality Disorder, Borderline Personality Disorder, etc.).
- Fluctuating and escalating risk of future violence.
- Incorporated complex case conceptualization factors including history of recidivism, intersectionality, disenfranchised grief and minority stress
- Use of Interactive Behaviour Change Skills in assessment/intervention approach, including consideration of relationship skills, effective reinforcement and disapproval, effective use of authority, and responding to resistance to encourage prosocial behavior change.
- Integrative and flexible approach to psychotherapeutic intervention including use of Dialectical Behaviour Therapy, Motivational Interviewing, Acceptance and Commitment Therapy, Cognitive Processing Therapy, and Cognitive Behavioural Therapy.
- Exposure to systemic social justice issues and criminal justice psychology, involving working with clients and team members from urban, rural, northern, and custody settings.
- Built and honed psychological consultation skills through:
  - Liaising and consulting with community clinic colleagues, including community justice support workers, probation officers, police officers, RCMP officers, psychiatric nurses, etc.
  - Providing weekly updates as part of a comprehensive team of care and justice support care providers
  - Conducted regular and emergency case meetings for safety planning, police involvement, medication review.
- Provided ongoing clinical supervision to upper year University of Saskatchewan graduate practicum student in the provision of co-therapy to a justice-involved client
  - Provided co-therapy with practicum student for justice-involved incarcerated client with complex psychological and risk-related needs
  - Taught and modeled new therapeutic modality in novel and complex therapeutic dynamic.
  - Evaluated as having exceeded expectations for mentorship.

*Supervised Psychometrist/Clinician – (October 2021–August 2023)*

Kaplan and Levitt Psychologists, Hamilton, ON

- Private healthcare practice of rehabilitation, clinical, and neuropsychologists providing assessment and treatment in an understanding and client-centered environment.
- Supervised clinician administering cognitive test batteries to a private practice population of primarily motor vehicle accident clientele with varying degrees of cognitive, psychological, and medical challenges.
- Conduct OCF-18 intakes for practice and prepare documentation for submission to 3<sup>rd</sup> party payers/insurance companies.
- Acquired important experience with Extended Healthcare Benefits (EHB), Automobile insurance (SABS) and Workplace Safety Insurance Board (WSIB) providers.
- Provided all testing in a virtual format through secure video platform.

- Prepared written documentation of behavioral observations of patients during the testing process.
- Conducted independent project comparing and examining auto insurance barriers for clients across Canadian provinces. Prepared relevant information into tables for the journal *Psynopsis* article for practice owners Dr. Faith Kaplan and Dr. Ron Kaplan.

*Clinical Practicum Student – (October 2021-May 2022)*

Traumatic Stress Injury and Concurrent Program, Homewood Health Centre, Guelph, ON

- Homewood Health Centre is one of the largest mental health and addiction facilities in the country offering programs that are specialized, unique, and national in scope.
- Completed 8-month in-patient placement for patients with complex mental illness, concurrent addictions, and persistent negative psychological effects of a traumatic event.
- Co-lead Cognitive Processing Therapy psychotherapy groups of 5-10 patients for individuals with complex trauma and comorbid disorders (e.g., personality disorders, addictions), as well as individualized therapeutic support, as well as co-lead Dialectical Behaviour Therapy skills groups.
- Individually lead groups based on self-compassion and change models in Post-Traumatic Stress Disorder.
- Co-lead weekly DBT-skills groups for over 30 inpatients simultaneously in a lecture theatre.
- Liaised with and supported an inpatient care team of psychotherapists, nurses, psychologists, doctors, psychiatrists, occupational therapists, social workers, and other support staff.

*Supervised Clinical Therapist/Psychometrist – (October 2019–August 2022)*

Brookside Psychologists, Burlington, ON

- Healthcare group made up of clinical psychologists, neuropsychologists, registered psychotherapists, and supervised therapists.
- Conducted relevant psychodiagnostic assessment for a wide range of mental health disorders including Major Depressive Disorder, Generalized Anxiety Disorder, Social Anxiety Disorder, Obsessive-Compulsive Disorder, Autism Spectrum Disorder, Attention Deficit Hyperactivity Disorder, Gender Dysphoria, and Post-Traumatic Stress Disorder.
- Independently managed an ongoing treatment caseload of 15 patients with bi-weekly hourly supervision with supervisor. Provided regular written reports of treatment progress.
- Worked from a variety of treatment modalities, including CBT, CPT, DBT and ACT, in an integrative format.
- Primary focus on gender dysphoria assessment and intervention.
- Assisted with medical legal cases for the practice, with neuropsychological testing as well as report writing.
- Worked with a variety of coverage providers (e.g., 3<sup>rd</sup> party payers, insurance providers, Workplace Safety Insurance Board).

*Clinical Practicum Student – (May-August 2019)*

Mood Disorders Clinic, St. Joseph's Health Care, Hamilton, ON

- Co-led psychological intervention groups including Behavioural Activation for Depression; CBT for Depression/Bipolar Depression; DBT/Emotion Regulation Skills for Young Adults/Adults.
- Conducted psychodiagnostic assessments and wrote integrated reports.
- Didactic discussion of intervention theories of current groups with clinical supervisor.
- Active interdisciplinary team member of social workers, psychiatrists, psychologists, etc.
- Attended clinic team meetings.

*Clinical Practicum Student – Longitudinal Practicum (September 2018-April 2019)*

Clinical Neuropsychology Services, St. Joseph's Health Care Hamilton, ON

Tam-Seto, L., Garland-Baird, L., Held, N., Heber, A., Buchart, L., Ibbotson, A., **Lade, S.,** Millman, H., Brown, A., Imre-Millei, B., Samplonius, M., Chrysler, C., & McKinnon, M. (2023). A way forward: Sustaining a restorative program for survivors of military sexual trauma. Journal of Community Safety and Well-Being. [Manuscript Submitted for Publication].

## GRADUATE CLINICAL COURSEWORK

Clinical Neuroanatomy	Psychological Assessment	Psychodiagnostics II
Human Neuropsychology	Research Design and Test Construction	Developmental Psychopathology
Psychological Intervention	Psychodiagnostics I	Ethics in Clinical Psychology
Statistics and Research Design	Contemporary Problems in Psychology	Computational Methods in EEG (Audit)

### TEACHING ASSISTANTSHIPS

Honours Human Behaviour	Motivation and Emotion	Attitudes and Persuasion
Adolescent Psychology	Child Development	Introduction to Music Cognition
Abnormal Psychology	Personality	History of Psychology
Psychometrics	The Arts and the Brain	Research Methods

### SCHOLARSHIPS AND AWARDS

- Yearly Psychology Graduate Departmental Scholarships (\$15,000 yearly)
  - (2015-2016; 2016-2017; 2017-2018; 2019-2020; 2020-2021; 2021-2022)
- Ontario Graduate Fellowship Scholarship (\$15,000) (2018-2019)

### SELECT PEER-REVIEWED TALKS

**Lade, S.,** Ibbotson, A. Imre-Millei, B., McKinnon, M. & Tam-Seto, L. (2023). *Experiences of Military Sexual Trauma in the 2SLGBTQIA+ Military Community – A Scoping Review*. Talk given at the 2023 Annual Meeting of the Canadian Institute for Military and Veteran Health Research in Ottawa, Ontario, Canada.

**Lade, S.,** Brown, A., Milman, H., Heber, A., Park, R., Ritchie, K., Davis, K., Lanius, R., & McKinnon, M. (2022). *The Impact of Sexual Misconduct on the Deployment Experience of Female Veterans*. Talk given at the 2022 Annual Meeting of the Canadian Institute for Military and Veteran Health Research in Halifax, Nova Scotia, Canada.

### SELECT PEER-REVIEWED PRESENTATIONS

- Presented peer-reviewed research at over 12 international conferences. More information available upon request.

### FORMAL MENTORSHIP

- Supervision provided to 11 undergraduate and graduate students, in both clinical research and clinical practicum settings. More information available upon request.

### SELECT CONFERENCE ATTENDANCE

- Speaker at the Annual Meeting of the Canadian Institute for Military and Veteran Health Research (CIMVHR) (2023) – Ottawa, ON
- Speaker at the Annual Meeting of the Canadian Institute for Military and Veteran Health Research (CIMVHR) (2022) – Halifax, NS
- 39<sup>th</sup> Annual National Academy of Neuropsychology Annual Conference (2019)

- Neurosciences and Music Conference (Boston) (2017)
- Canadian Association of Cognitive and Behavioural Therapies Conference (CACBT) (2016)
- Brock EEG-ERP Workshop (2015)
- CANMAT (Canadian Network for Mood and Anxiety Treatments) Workshop (2015)

#### **COMMITTEE INVOLVEMENT**

- Student Advocates for Equity, Diversity, and Inclusion Task Force (SAFEDI) – (2019-2022)
- Promoting Recognition and Inclusivity across St. Joe’s and McMaster for Sexual, Gender and Intersectional Minorities Working Group (PRISM) – (2021-2022)
- Sexual Violence Prevention and Response Task Force (SVPR) – (2021-2022)
- Equity Actions Committee (2015–2018)
- Graduate Student Services Review Committee (GSSRC) (2015–2017)
- Student Accessibility Services Working Group (SASWG) (2015-2016)

#### **SELECT PROFESSIONAL DEVELOPMENT TRAINING**

- *Managing Challenges in the Therapeutic Relationship.* (Philadelphia Behaviour Therapy Association). Dr. Cory Newman (December 2023.)
- *Legislation Relevant to Privacy Issues.* Dr. Glenn Pancyr, Dr. Fern Stockdale. (November 2023).
- *Sensitive Topics in Clinical Psychology.* Dr. Fern Stockdale. (May 2022)
- *Cultural Humility and World Genograms.* Dr. Fern Stockdale. (July 2023)

#### **PROFESSIONAL AFFILIATIONS**

- Student member in good standing of *National Academy for Neuropsychology*
- Student member in good standing of the *Canadian Psychological Association*
- Student member in good standing with the *American Psychological Association*
- Student member in good standing with the *Philadelphia Behaviour Therapy Association*
